**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

1. Authorization for this examiner's amendment was given in a telephone interview with Mr. Carl Pellegrini Registration No. 40,766 on March 31, 2006.

In regard to claim 16-22, the limitation of "stored on a recording medium" are inserted <sup>after</sup> ~~to~~ the first occurrence of re-synchronization program. (Line 1)

***Allowable Subject Matter***

2. Claims 1-22 are allowed.
3. The following is an examiner's statement of reasons for the allowance:

The examiner deem claims 1-22 as novel when read as a whole for the limitations of a lock-step synchronism fault-tolerant computer system including a plurality of computing modules having a processor and a memory in which each computing module processes the same instruction string in synchronization with each other, wherein when detecting disagreement in an external bus access and if no fault is detected an interrupt is generated to all processors to execute delay

adjustment for making a state of instruction execution among computing modules be coincident.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
